# Performance at the highest levels. It's easier said than done.

OX creates truly innovative products that are built to perform inside and out. While others might rewrap, rebrand, or repackage ideas, we're reimagining what building products can do. Constantly asking "Why?"

Why can't sheathing provide insulation in addition to strength?

Why can't being eco-friendly also be friendly to your bottom line?

Why can't you cut your installation time without cutting corners?

Why can't the best products be stably and competitively priced?

We're unafraid to ask questions. Because questions get us answers to the problems builders face every day. Better buildings and better building products go hand-in-hand. At OX, we believe that to the core.

**Performance to the Core.**
