The smart solution behind exterior claddings for commercial and residential construction

TITAN is an advanced non-woven, non-perforated, Housewrap & Air Barrier material that has been engineered as a drainage material to provide superior performance while exceeding the most stringent criteria for the Building Thermal Envelope.

With premium performance in air holdout and water resistance, TITAN non-perforated housewrap minimizes air intrusion and maximizes the thermal efficiency of the best designed wall systems.

Air Resistive Barrier

Certified Air Barrier Material which exceeds ASTM E-2178 minimum requirements.

Water Resistive Barrier

Water resistive barrier exceeds AATCC-127 Water Head Test

Ease of Installation

Designed with jobsite performance in mind with outstanding nail tear resistance, premium tear strength, and superior building envelope protection

Drainage Efficiency

Certified Drainage material exceeds ASTM E-2273 performance requirements.

Titan Protective Housewrap

TITAN Protective Housewrap Roll Sizes and Quantities

3' x 100' - 192 rolls	4.5' x 100' - 128 rolls
3' x 165' - 147 rolls	4.5' x 150' - 98 rolls
3' x 195' - 105 rolls	5' x 200' - 60 rolls
9' x 100' - 64 rolls	10' x 100' - 64 rolls
9' x 125' - 49 rolls	10' x 125' - 49 rolls
9' x 150' - 49 rolls	10' x 150' - 49 rolls

Attributes

- Excels in air and water resistance, drainage requirements and durability.
- Greater tear resistance and strength than competitive products.
- Class A flame spread rating ASTM E-84
- Smart solution behind exterior cladding for commercial and residential construction; EIFS and stucco, cement, hardboard, vinyl, wood sidings, brick and stone veneer
**please remember to install all housewraps in accordance with proper building codes*

TITAN tests as good as or better than the big-name brands, but is priced far less.

15 YEAR LIMITED WARRANTY Titan® Weather Barrier System

Combine **Titan® Drainage Wrap** with **Arctic-Flash Synthetic**, **HomeGuard Flexible Butyl Flashing**, **Titan Butyl Flashing**, **HomeGuard Polymer Sealant** and **HomeGuard Seam Tape** to create an energy efficient, complete weather barrier system backed by a 15-year limited warranty.

Arctic-Flash - Extreme performance synthetic flashing with advanced acrylic adhesive provides a wide install temperature range from 0° F to extreme heat. UV Resistant for 180 days. Made in the USA.

Flexible Butyl Flashing - High performance flexible butyl adhesive flashing for arched windows and doors, window sills and custom shaped penetrations. UV Resistant for 180 days. Made in the USA.

Titan Butyl Flashing - is a high tack, high performance self-adhered window and door flashing tape designed with a wide application temperature range from 20 F to extreme heat of 160 F without requiring primer or mechanical fasteners.

HomeGuard Polymer Sealant - Advanced STP-E polymer chemistry provides a superior bond to most substrates. Use it to seal windows, doors, column joints, gutters, vents/ducts and most molding, trim and siding. Compatible with HomeGuard weather barrier products. Made in the USA.

HomeGuard Seam Tape - UV Protected facer material with aggressive acrylic adhesive designed for sealing the seams of HomeGuard Housewraps.
