# home**GUARD**<sup>®</sup>

housewrap by **OX**

## **Air, water and complaint resistant.**

Protecting you from the harsh elements of mother nature, HomeGuard<sup>®</sup> housewrap excels in air and water resistance, moisture vapor permeability and durability.

HomeGuard<sup>®</sup> housewrap is an engineered, woven, polyolefin material designed for use as a secondary weather resistive barrier.

The strong woven fabric ensures jobsite durability, even in the harshest conditions. HomeGuard's micro-perforations allow damaging moisture as a vapor to escape while shedding bulk water.

---

### **Air Resistive Barrier**

Protects the wall assembly from air infiltration to increase the comfort of the building by reducing drafts and increasing energy efficiency.

### **Water Resistive Barrier**

Protects the wall assembly against water intrusion that gets behind the exterior cladding.

### **Moisture Vapor Permeability**

Preserves the integrity of the wall assembly by allowing the moisture as vapor to escape to the outside.

### **Durability**

Has the ability to withstand the elements of the weather and tough jobsite conditions.
